Attached please find the March 2004 issue of the WASHRag. It's a week early since next weekend is WASHFest and I'll be just a might busy!

Hope to see you at the hamfest if you can make it! (And if you can & have a digital camera, please, take pictures for the post-Hamfest newsletter!)

The WASHFest 2004 Special Edition of the WASHRag was sent out about two hours ago. I've been getting some bounce backs due to full mailboxes (understandable due to the size of the issue... a lot of pictures will do that to you!

If your copy did not arrive, please let me know and I'll resend it.

Thanks!

Attached you should find the May 2004 issue of the WASHRag (here's hoping I have the right file this time!) Enjoy!

Be advised that this email address is about to die. My new email address... well, I don't want to spell it out because of all the spambots out there, but if you change the "fyi" to "verizon" then you've got it. But I'm "really" going to miss all those ads wanting me to borrow money to gamble on line to win even more money to buy all the diet pills...

60. July WASHRag Coming

Yahoo group: wa3sh
Date: 2004-07-05 23:10:08 UTC
From: Ron Notarius
Topic: 60 Message: 60

The July issue of the WASHRag will be coming your way later tonight. Because of the file size (1.3 MB), I can not send it through Yahoo, so it will be going to you directly. Sorry about that, but it's almost unavoidable with the photos.

The file has already been posted on the WASHRag (WA3SH) file area on Yahoo, and you should have already received the notification. I am aware that people who have not registered their email addresses with Yahoo have trouble accessing the location; I am trying to mark it as publicly available for download, but they want their demographics... in any event, it will also soon be available on the club web site once NØPEU gets it and uploads it to the server.

Hope you had a good 4th!

64. September Issue

Yahoo group: wa3sh
Date: 2004-09-08 04:16:45 UTC
From: Ron Notarius
Topic: 64 Message: 64

The September issue of the WASHRag was uploaded to the WA3SH group file area on Yahoo! and sent out earlier this evening.

Because of the file size, some of you may not have received it (if you're familiar with a Groupwise email service called "Guinevere," you definitely didn't receive it! Same with those of you on Hotmail). The large file size was unavoidable due to the number of pictures included.

If you didn't get it, let me know (and with an alternate email address if available) and I'll resend it after I return from work tomorrow.

Sorry again about the delay, the last few days have been unusually hectic!

Folks,

My apologies for the delays, but finally, here is the February issue of the WASHRag. Sorry it's so late, but I've been fighting off a bad cold the last few days which, along with some other unexpected monkey wrenches (like a job interview on a few hours notice!) have thrown my schedule off.

As noted in the issue, please be advised that the deadline for the March issue is moved up to February 20th so that, hopefully, we can have it out right before WASHFest on the 27th.

Hope to see you there!

The Mid-March Post-WASHFest Special Edition of the WASHRag will be arriving, hopefully, in your mailbox shortly.

Be advised that because of the size of the newsletter (over 2 MB), because of all the photos involved, it may not fit in your mailbox -- this is especially true of Juno and Hotmail users. So if you don't receive it by the end of the day today, let me know and we'll make alternate arrangements.

The regular April edition of the WASHRag should be out by the end of the week. Anyone having anything to contribute towards the April issue, please email me directly. Thanks!

The July WASHRag should be enroute to you shortly. Due to the size of the newsletter, due to all of the photos, it will be around 1.5 MB in size. Those of you with small or unempty mailboxes may have trouble receiving it; if you don't get it soon, let me know and I'll resend it to you directly.

It will also be posted on the WASHRag Yahoogroups site later today; the system will automatically notify the list when this has happened.

The October WASHRag was sent out earlier today.

It looks like for some unknown reason, some people got an email with no attached newsletter.

If you did not get the newsletter, drop me a note and I'll resend it.

Somehow, lately, the best laid plans never seem to get this thing out on time...

Attached please find the March issue of the WASHRag.

As noted, there WILL be a second March Special Edition with WASHFest pictures. It should be out in about a week to 10 days. If you have ANYTHING for this newsletter -- hamfest pictures, anything regarding the 2 meter contest, or anything else you can think of -- plese email it to me ASAP!

Enjoy the pizza at the meeting tomorrow night, unfortunately I have to work and won't be able to make it (now if someone can save me some slices of plain or veggie...)

My apologies for this being so late, but at long last (and just in time), here is the May newsletter. Enjoy!

It's been a busy week, which has kept me from completing this before now, but the GOOD news is that our bid on the house WAS ACCEPTED, so unless something really bad happens in the next few weeks, we should be moving sometime in July. (And THAT's why I'm not making Dayton this year, those shekels are going into escrow!)

My apologies again for the July issue coming out so late. It went to your mailbox direct (not via this list) this morning; if you did not get it, let me know and I'll shoot another copy off to you.

You'll notice that this issue is not up to my usual standards. I just plain ran out of time to finish a few pages, including the calendar, so some things just got dropped or left blank. And the usual "polish" isn't there either. I'm not happy about it, but a few other issues took priority... anyone who'd like to come over and help paint, run 100BaseT, or run coax is more than welcome!

The November 2007 issue of the WASHRag will be on it's way in a few minutes.

Because of the size of the issue, primarily due to all of the photos, it can't be sent through the reflector but has to be sent manually. So this will take a few minutes to get it set up and on it's way to everyone.

If you do not receive your issue by 1900 Z, then it may have been blocked or another problem may have occurred. After that time, email me direct and I'll make sure you get it.

See you at the WACOM Hamfest tomorrow!

My apologies for the extended delay. Last week was a little more hectic than usual for a variety of reasons, which delayed completing the newsletter. It finally went out last night, or so I thought, but it appears that YahooGroups now thinks that 775K is the same as 1 MB. Go figure...

Please let me know if you have difficulty opening the document. I've upgraded from Adobe Acrobat 6 to Acrobat 7 (and a "new" computer) as of this issue, so it is possible that we may have compatibility issues with older versions of the Adobe Reader.

132. Newsletter Update: Meeting Changed

Yahoo group: wa3sh
Date: 2008-02-14 01:38:36 UTC
From: Ron Notarius W3WN
Topic: 132 Message: 132

My apologies for those of you getting this notice multiple times, especially if you are on the WASH Club Reflector, but I wanted to make sure everyone was aware of the change.

We learned early Wednesday morning that the Peters Township Library is closed through the remainder of the week. They had a frozen pipe burst, which caused some minor damage. The crew that was supposed to complete repair of the damage and replacement of water-soaked ceiling tile is behind schedule, as they've been busy plowing the roads the last few days!

Therefore: Be aware that Steve W3SRL has arranged for the WASH meeting to be at:

Mt Lebanon Public Safety Building (PSB)
2nd Floor Meeting Room
555 Washington Road (Business Route 19)
Mt Lebanon, PA

Starting Time is 7:00PM as usual. This location is directly across the street from Rolliers Hardware. Talk-in... well, people will be listening to the repeater, at least... on W3SRL/R 146.955 MHz & N3FB/R 443.650 (131.8 PL)

Paid Parking is at the North parking garage, about 2 blocks south of the Public Safety Bldg. It is also within a few blocks walking distance of the "T". (Please: DO NOT park at the PSB. That lot is for emergency personnel only. You risk towing!)

Free Parking is at the Mt Leb Cemetery north of the building. Be careful - the cemetery lot is snow covered.

Hope to see you there.

In view of the continuing issues everyone in the region is having with snowfall to date, and more expected... and also in light of Penn DOT's request urging "everyone to avoid unnecessary travel," according to the Post Gazette...

Tomorrow night's meeting of the Wireless Association of South Hills has been postponed, from Thursday, February 11th, to Thursday, February 18th.

We will still be meeting at the Peters Township Library, but the room will not be available until 7:30 PM as another group is in there first.

The main topic of the night will, of course, be WASHFest planning. Secondary topics will include upcoming plans for 2010 activities, and we may need to have a short discussion on alternative meeting sites.

If you hear anyone making plans for tomorrow night's meeting on any of the local repeaters, please let them know about this change.

Thanks!

Good evening,

The June WASHRag is progressing along and with any luck should be out Monday or Tuesday evening at the latest (I know, famous last words). A few housekeeping matters that take place beforehand, regarding items that won't wait:

-- Please, don't forget that the Breezeshooter's Hamfest is coming up THIS Sunday. I've attached the hamfest info page from the May newsletter as a reminder and with the usual details.

-- Of course, we're once again holding our annual WASH Picnic at the Breezeshooters, details also on that page. If you decide to join us, there's still time to contact myself or Carol KB3GMN; in part so that we have an idea of how many are coming (not that we've run out of food yet, but why start now?) and so that we can coordinate the "pot luck" aspect, so that we don't have 30 people bringing potato chips and nobody bringing dip!

If you are planning to be at Breezeshooters, we always have room (especially early) down by the grandstand, so come on down and set up with us. For no other reason, it gives us all a chance to keep an eye on everyone else's stuff if you need to take stroll for one reason or another!

-- This Saturday is the MS Bike Ride, and at last report additional amateurs were needed to help provide communications along the route. Over 1700 riders are expected. For more information, contact Mark Shallenberger N3PBQ at n3pbq@....

-- This Saturday morning is also the Run for Alex in Bentleyville. More information Dave N3IDH at n3idh@... or Bud N3TIR at n3tir@...

-- This Saturday afternoon is the Fox Hunt (with WACOM) dry run at Mingo Creek Park, starting at 3 PM, at the Observatory (our FD site). Talk-in on 146.79. For more information contact Adam KB3OMH kb3omh@...

Finally... our June meeting location has been set. We will be meeting at American Legion Post #760, 2409 Bethel Church Road in Bethel Park. This is just off Library Road / Route 88, about a mile or so north of the South Park interchange. Full details and directions will be included in the June newsletter.

Hope to see you this Sunday!

203. February 2013 Newsletter Update/Clarification

Yahoo group: wa3sh
Date: 2013-02-13 18:46:15 UTC
From: wn3vaw
Topic: 203 Message: 203

There was some slightly out of date information in the February newsletter that I've been asked to clarify.

In the December meeting minutes (there was no formal meeting in January due to the Christmas/Holiday party), there was a note under the WASHFest 2013 report that Stu Webb of ITEC, due to health issues, was unlikely to attend the event.

The good news is that his situation appears to have improved, and I am told that Stu will be attending WASHFest.

Had we been aware of Stu's change of status, an editor's note would have been added.

Our apologies to any concerned over the oversight.

It must be fate. I had just about everything done for the newsletter Monday night, but kismet and fate decided that once again, Tuesday night would be the night. And here it is.

Attached please find the August issue of the WASHRag. Enjoy!

So, what do YOU do when the brand-new AC system fails & you're waiting for the tech from the installation firm to come out and fix it?

Ignore that dang parrot, for one thing,

But I decided to put it to productive use and complete the September issue of the newsletter (of course, considering deadlines, I would have had to anyway)

Enjoy!

Didn't QUITE make my self-imposed deadline, the computer has decided to get cranky for the last hour. Probably should have rebooted it.

Regardless, for your enjoyment, derision, indifference, or bird cage lining, the January 2016 issue of the WASHRag.

Enjoy!

For reasons unknown, the May issue went out last night but doesn't seem to have been delivered.

If it's merely help up somewhere, you may get a second copy, for which I apologize in advance.

Here it is, in all it's glory. or infamy. the June WASHRag, suitable for reading, framing, or wrapping the fish in for trash day.

On a serious note, we will soon begin switching the newsletter mailing list from the YahooGroups list it's been on for many years, to a new GoogleGroups list. An administrative note will be sent out when we are ready to proceed with that step, which should be before the end of this month.

I know, I know, you're all used to getting the newsletter the Tuesday before the meeting, sometimes the Monday before. I actually TRY to get it done sooner.

And once in a blue moon, I do. (I'd hoped to get this out on the 1st, but it looks like I missed that goal by about 15 minutes or so, do to proof-reading)

Yes, this is a big one. 22 pages, due to all the pictures. So if your email system has trouble with it, it will be available on the N3SH web site in fairly short order!

Enjoy, and a happy 4th of July to all!
